

Music for the Soul

TEXT BY EDWARD SPEIRS, PHOTO COURTESY OF HARD ROCK HOTEL BALI

With new bars and clubs popping up all the time, the music scene in Bali is taking a huge turn. Big DJs are flown in to blast their beats at midnight dancers, house and electronic music reverberating around the flashing dance floors. This isn't for everyone though - some of us prefer the old school roots of classic rock and roll, and where better to enjoy this than Hard Rock Hotel Bali's Centerstage!

Also doubling as the hotel's lobby bar, the huge atrium that makes up Centerstage quite appropriately resembles what you'd expect from any wild rock concert. Paying homage to the likes of Woodstock, stage rigging, professional concert lighting and a million dollar audio-visual system, powered with a 100,000-watt charge, electrifies the crowds. There's a reason why they're called Hard Rock you know!

As the centre piece of this top-of-the-line concert hall is the sleek central bar, serving beers and cocktails galore. Most importantly however, is what sits above it - Centerstage is high above the crowds and plays host to live bands every single night.

This April, Centerstage has a number of fun nights you should get in on. Every Monday is **Rhythm & Booze**, with the Deviate band playing RnB hits, a fashion show, pool competition and premium cocktails. Wednesday is **Ladies Night**, when the lady rockers can take advantage of half-price cocktails and enjoy the 'Tribute to Madonna' dance performance.

With awesome comfort food, refreshing drinks, a rockin' ambience and live bands amping up, Hard Rock's Centerstage brings life back to music here in Bali.

Live music starts from 8pm onwards every night, no cover charge.
